EDUCATION

Acropolis Institute of Technology and Research

B.Tech CSE-Cyber Security - 8.14 GPA

Sep 2024 - Present

Shri C. M. Vaishnav Bal Mandir G.H.S.School

XII - 85.65%

2023-24

Shri C. M. Vaishnav Bal Mandir G.H.S. School

X - 80.4%

2021- 22

PROJECT

Spam messages Detector

Sep 2025

- Built a ML-based system which classifies messages as spam or legitimate. Implemented text preprocessing techniques including tokenization, stop-word removal and vectorization. An interactive interface was built using streamlit for real-time message analysis and prediction.

Simple Chatbot

Jan 2026

- Developed a simple chatbot capable of responding to user queries through predefined conversational logic. Designed an interactive user interface and implemented basic intent handling to provide relevant responses

Resume Analyzer

Feb 2026

- Developed a Java-based resume screening system that analyzes resumes against job descriptions. It was done using text parsing and similarity matching techniques. Implemented resume content extraction, keyword analysis and similarity score calculation to evaluate candidate-job fit.

Safe navigation system for women and vulnerable groups

May 2026

- Contributed to application development, user interface implementation, and integration of location-based services using React Native and Expo which helps users identify safer travel routes and access emergency assistance features. Worked with team members to design, develop and test features aimed at improving personal safety and accessibility during travel.

File Integrity Checker

June 2026

- Developed a file integrity checker that verifies file authenticity by generating and comparing cryptographic hash values. Implemented checksum validation to detect unauthorized modifications, corruption, or tampering, ensuring data integrity and reliability. Built a simple interface for users to monitor file status and perform integrity verification.

SKILLS

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL

Web & Mobile Development: HTML, CSS, React Native, Expo
Machine Learning & AI: Scikit-learn,NLP, Data Preprocessing
Tools & Platforms: Git, GitHub, VS Code
Soft Skills: Team Collaboration, Communication, Adaptability, Initiative
